

GRATITUDE REPORT TO DONORS 2023

To our Brighter Days supporters,

We are still basking in the amazing glow of warmth and passion shown to the South Shore Regional Hospital redevelopment project, by you the donors, through the Health Services Foundation of the South Shore's Brighter Days campaign.

As of the writing of this note, the campaign has raised \$10.8 million towards this once in a generation project.

We can now finally see the future of South Shore healthcare taking shape. The two-story addition, which will house the expanded Emergency and Endoscopy Departments as well as the

new twelve-bed renal Dialysis Unit, is now framed. You can see the shape of new entrances where patients will now start their healthcare journeys at South Shore Regional, including what will be the covered and heated ambulance bay.

Thanks to you, the Brighter Days campaign was able to do much more than we first anticipated. Your enthusiasm allowed the Health Services Foundation to lobby for the addition of the South Shore's first and only MRI to the project. As well (in the coming years) the South Shore will benefit from new SPECT-CT technology, as it is already benefitting from the eight additional patient overflow beds you made possible.

We cannot thank you enough for the time and support you have shown to this tremendously successful initiative. From the volunteers who were eager to help when asked to anyone who made a financial gift of any size, your passion for our regional hospital is what will keep "bright" days on the horizon for healthcare on the South Shore.

Sincerely,

David Himmelman

Tim O'Regan

Co-Chairs
Brighter Days Capital Campaign

Nova Scotia Health Redevelopment Construction Update

The redevelopment of South Shore Regional Hospital, which began in Spring 2022, is well underway and will continue through 2027.

As renovations continue, we want to express our sincere gratitude to the community and donors for their generous support. Your contributions have helped make this project a reality, and we are incredibly grateful for your commitment to enhancing healthcare services in the region.

This expansion will add 30% more square feet to the hospital's footprint, bringing more healthcare services closer to residents of Lunenburg and Queens counties. The critical components of this expansion include a redeveloped and expanded Emergency Department, a new Renal Dialysis unit, a new MRI, new endoscopy suites, and new expanded day surgery clinics.

As of November 2023, the structure of the Dialysis/Endoscopy unit is complete, and the underground mechanical and electrical installations are ongoing. The build is progressing, including the exterior walls. Similarly, the structure of the Emergency Department is also complete, and the layout of the interior walls is underway.

This expansion project is a critical aspect of the South Shore Regional Hospital redevelopment, and it will provide modernized, accessible, and enhanced facilities that cater to the diverse healthcare needs of the community members. Once again, thank you for your support in making this project a success.

The expected completion dates as of November 2023 are as follows:

BOILER ROOM

Fall 2024

ELECTRICAL ROOM

Winter 2025

EMERGENCY/ENDOSCOPY/DIALYSIS

Fall 2025

MAGNETIC RESONANCE IMAGING (MRI)

Fall 2026

DAY SURGERY

Spring 2027

Premier Tim Houston tours SSRH redevelopment construction with Nova Scotia Health and Health Services Foundation leaders.

Thanks to all whose passion for the Brighter Days capital campaign helped raise **\$10.8-million** in support of the South Shore Regional Hospital Redevelopment Project.

Embracing Healthcare Regionally

The care at South Shore Regional Hospital is far reaching. It touches the people who live in communities from Hubbards to Shelburne. It also provides healthcare options for those who summer in our ocean playground.

The Brighter Days capital campaign team was so pleased to receive donations supporting the redevelopment of South Shore Regional from four of six municipal governments in Lunenburg and Queens Counties.

Both the Municipality of the District of Lunenburg (MODL) and the Town of Bridgewater gifted \$200,000 to the project, noting the importance of a strong and modern regional hospital on the South Shore.

"This donation was made on behalf of the residents and staff of MODL," said MODL Mayor Carolyn Bolivar-Getson.

"It was an easy ask for us. South Shore Regional serves all the residents in our municipality and when we are talking about equipment such as an MRI, dialysis treatments, a revamped emergency department, these are all so important to our residents and to everyone on the South Shore."

Bridgewater Mayor David Mitchell said the redevelopment will bring more to the area than excellent healthcare. "It's a good investment as the expansion for our regional hospital is important for the additional services it provides. It has a trickle-down effect; the hospital expansion will bring in new staff. Those new staff bring with them their families, who bring other skills, which could mean a new business, or a new employee or kids in school. It grows the town that way and then it just keeps repeating itself. So, I think it goes beyond the bricks and mortar the hospital."

"We have a role to play in attracting physicians and staff to the hospital or to a practice here," Mayor Mitchell added. "The redevelopment of South Shore Regional Hospital is going to help with this."

The Region of Queens Municipality's Council also approved a \$100,000 donation in support of the Brighter Days capital campaign, noting how the residents of Queens will benefit greatly from the redevelopment of our regional hospital. The Town of Lunenburg also generously gave \$20,000 to the project.

The Brighter Days campaign volunteers and the Health Services Foundation of the South Shore are grateful for the support of our regional governments. The saying "it takes a village" has never been truer than helping bring the redevelopment of South Shore Regional Hospital to fruition.

Constructing Excitement Inside South Shore Regional

While the physical two-story structure of the South Shore Regional Hospital redevelopment is imposing as it is built and connected to the side of the original facility, the excitement for the future of medical services in Bridgewater is building within.

The new addition to the 35-year-old hospital will house South Shore Regional's expanded Emergency Department, as well as a new 12-bed Dialysis Unit and Endoscopy Unit.

"We are excited for the consolidation of the endoscopy units at South Shore Regional Hospital to one new unit," says Gastroenterologist Dr. Hughie Fraser. "It will allow for ongoing high-quality endoscopy in a modern, efficient dedicated space."

Gastroenterologist Dr. Hughie Fraser

David Landry, Senior Director of Nova Scotia Health's Renal Program echoes that excitement.

"The new dialysis unit will be a state-of-the-art facility for renal staff to provide safe, quality care closer to home for community members in the South Shore area."

"We're excited to be able to offer high quality services in a new space," says Emergency Department Lead Physician, Dr. Rob Harris. "It will equal the quality of care we provide. The additional room will offer patients and staff a safer environment to receive and provide the exceptional care the South Shore deserves."

Dr. Rob Harris, Emergency Department Lead Physician

We can't wait to see how the building enhances healthcare for both patients and providers at South Shore Regional Hospital.

Dozens of Brighter Days donors joined the Health Services Foundation to tour the redevelopment construction at South Shore Regional Hospital this Fall.
